**A Report on
Outbound Experiential Learning Programme
for MBA Students at
Leap Learning Academy, Coimbatore**

OUTBOUND EXPERIMENTAL LEARNING (OEL)

Outbound Experiential Learning is a training method for enhancing organizational performance through experiential learning. Such programs are often also referred to as outdoor management development. Achievement, performance and behaviors during these activities are reviewed through a process of discussion called debriefing, to identify behaviors that enhance performance or lead to failure or decreased performance. Strategies are formulated to deal with factors that hinder, and these strategies are then put to use in the activities that follow, to test their effectiveness and ultimately help the participants learn to change behaviors or processes back at work.

In Outbound Training Sessions, the facilitator invites the group to achieve a goal, but does not explain how to successfully complete the activity. Participants must work to find a solution individually and together as a team, and must communicate and learn from each other in order to be successful. The Learning begins with the experience followed by reflection, discussion, analysis and evaluation of the experience.

Objectives

The Objectives of the programme are primarily two fold:

- To understand the dynamics involved in working as a Team Member rather than as an individual ie; to shift from the concept of 'I' to 'We'.
- To understand the linkages between theory and practice ie; understanding practical application of concepts/theories through activities which simulate group dynamics normally prevalent in work environment.

The Methodology

- Experiential Learning is exactly what the name implies, 'Learning from Experience'. It is based on the 'Adult Learning Cycle' conceptualized by David A Kolb. Experiential Training provides an opportunity to:
 - (a) Engage in an Activity
 - (b) Reflect on the Activity with regard to Individual Behavioural pattern, Team Processes, Application of Principles of Organisational Behaviour and Management.
 - (c) Conceptualise the required Behaviour for future similar scenarios.
 - (d) Experiment the Concept in a new situation. The Learning Cycle continues with further reflection.

The programme will be largely Team Development with focus on following objectives:

- (a) Team Synergy, Collaboration
- (b) Big Picture, Interdependence, Bonding
- (c) Leadership
- (d) Analytical Thinking, Out of the box thinking
- (e) Problem Solving, Managing Ambiguity, Innovation
- (f) Resource Limitations
- (g) Communication, Perception

The Process

Participants live in tents, trek hills and participate in a wide array of fun and adventure based outdoor activities and games. After each activity, participants interact and reflect on it, and draw conceptual insights. Experienced Facilitators assist in the process and help individuals to discover knowledge. The process facilitates experimentation without penalty, quick recall of learning, is reality based, and is in an informal environment. The focus, all through the process, is 'What learning do we take away and further, how do we ensure being in a recurring Learning Cycle'.

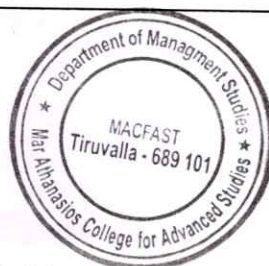

Location

The programme was based out of the adventurous **Leap Learning Academy, Coimbatore**. This camp has small tents with common toilets (western) and bathrooms, separate for ladies and gents. The location shifts the participants out of comfort zone and necessitates considerable interaction between each other.

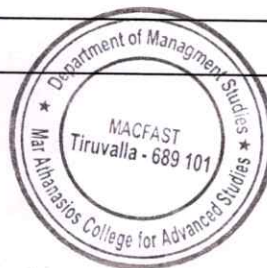

Appropriate concepts shall be used as interventions to guide the thought process and reinforce the learnings. Linkages between concepts and practical applications would be brought out. Concepts such as 'The Experiential Learning Cycle', 'Leadership Styles' and 'Communication Process' are integral to the programme.

Schedule

PROGRAM SCHEDULE			
DAY 1			
7:30 AM - 8:15 AM	ADMIN BRIEFING AND REGISTRAION		
8:15 AM - 9:00 AM	BREAKFAST		
9:00 AM - 10:00 AM	OBL Briefing	To understand the objective of the program. Evolution of OBL	
10:00 AM - 01:00 AM	HIGH ROPES	Outdoor Activity. Individual would put through 6 obsacles and 200 feet zip	1. Fighting Fear

		line.course 25 feet from the ground.	2. Confidence building
