Respected Madam,

Greetings from TIPS@ SCTIMST TIMed!

Sree Chitra Tirunal Institute for Medical Sciences & Technology (SCTIMST) is an institute of national importance under the Department of Science & Technology, Government of India. The institute has more than three decades of expertise in the development of medical devices and biomaterials, technology transfer, and translation of the know-how into products by hand-holding with the industry. SCTIMST TIMed is the technology business incubator of the institute inculcating the culture of incubation and entrepreneurship among the biomedical aspirants.

National Biopharma Mission under the Biotechnology Industry Research Assistance Council (BIRAC) has established a Regional Technology Transfer Office at TIMed called **TIPS@TIMED** to take a lead role in mentoring and supporting other academic institutions and organizations to facilitate technology commercialization activities and to strengthen their Intellectual Property management portfolio.

In the innovation ecosystem within academia, we know that there are a lot of promising ideas and innovations that have immense market potential but being limited just to research publications. Most of the academia fail to understand the market value of their innovations and lacks information on how to translate the shelved inventions to benefit society. We at TIPS aims to pave a way to create industry-academia partnerships and support start-up/spin-offs so that promising inventions can be brought into the limelight.

We have been searching for institutions that are into research apart from their academics and identified that your prestigious institution has put good effort into research activities. As your educational institution has an active research background, we believe that collaboration will benefit both of us. As an initial step, we would like to propose a half-day free **online workshop on 'Adding value to your research through translation'** to introduce the concept of technology transfer to the students and faculty. This online workshop shall have speakers who are experts in the field of research and technology transfer.

Kindly let us know your convenient time and date for the same so that we can take it forward. The brochure for TIPS is attached herewith for your reference.

Please feel free to contact us in case of any queries/clarifications at

Email: [timed.tto1@gmail.com](mailto:timed.tto1@gmail.com)

Dear Madam,

Greetings from MACFAST!

Hope this email finds you in good health. We are definitely interested in pursuing this option. It would be good if we could schedule this webinar for the 30th of October (Saturday) due to the constraints of the current academic schedule.

Looking forward to a positive response.

Warm Regards,

Jenny Jacob, PhD  
Associate Professor and Head  
School of Biosciences
