# Soft skills Training Programme

## MACFAST INDUSTRY INTERFACE (MII)

### MII conducted by Department of Computer Applications

#### Objectives

- Exposing students to state-of-the-art tools that the industry uses encourage them to see the benefits and limitations of these tools and to think of better solutions. Students would thus have a general idea of what is available and what their future employers expect.
- Providing software courses for students majoring in various disciplines.
- Engaging students in long-term projects which involve large systems, large groups, and dealing with end users. This would teach students different aspects of analysis, design and implementation by involving the reuse, understanding, modification and extension of existing software.
- Interaction of faculty with the Project Managers of the Companies. This would help in understanding the industry standards and their current projects.
- Conducting seminars by employed professionals of the industry. This would introduce awareness of the existing projects amongst students so they can develop their knowledge to fit into the spectrum.
- To provide soft skill training courses as per the needs of the industry.
- Undertake Consultancy Assignments for the industry.

# OUTBOUND EXPERIENTIAL LEARNING (OEL) TRAINING PROGRAMME

OEL was conducted for 2015-17 MBA (Manotechz and Triumphants) Batch students. Total 128 students enrolled in the programme. The programme was conducted from 29<sup>th</sup> September 2016 to 3<sup>rd</sup> October 2016. The training was conducted by LEAP Learning Academy Coimbatore

## Methodology of Trainers at LEAP

### THE LEAP METHODOLOGY

At LEAP, we realized early on that it is important to move away from traditional classroom methods of coaxing our mind, to introducing our minds to an environment which is free from restrictions, an environment which allows our mind to be playful yet exceptionally perceptive and alert, like a child's play. This is what Experiential Learning helps us to do.

Our Multi-Dimensional Learning methodology based on the principles of David Kolb's "Adult Learning Cycle", exposes the participant to wonderful Learning Experience for Enhanced Performance. Leveraging on the experience, the faculty elicits

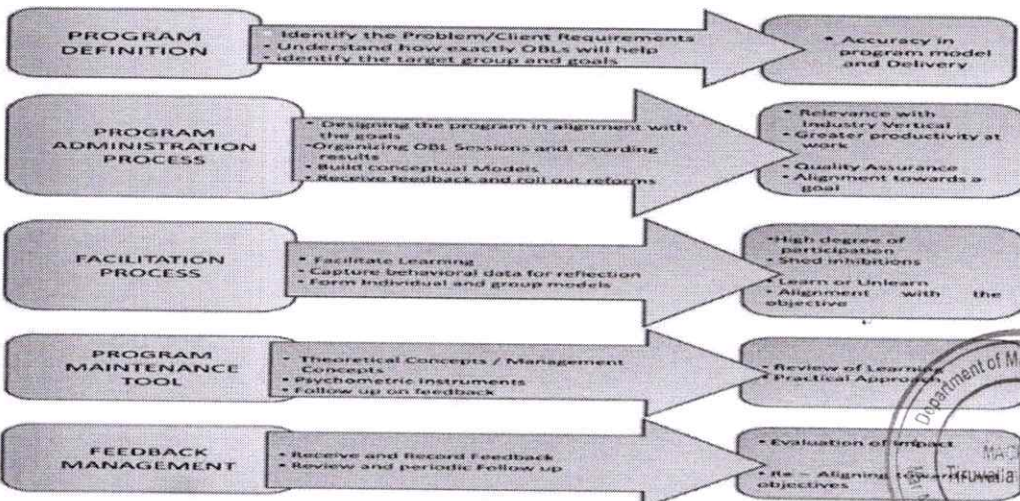

spontaneous reactions and behavior in an atmosphere conducive for anyone to come out of the shell. It is the "Learn at Play" concept best at work here at LEAP. We break free from set procedures and mindsets, and allow you the opportunity to try new behavior and draw lessons through thought provoking and reflective sessions.
