Mock Placement Process and Analysis

Many methodologies were introduced based on the competency level of the students and rather than conducting mock sessions on group discussions and personal interviews for the second time, we planned for a mock placement process to give the students a realistic feeling of an actual placement process.

We conducted an aptitude test in the beginning with duration of 60 minutes, followed by Group discussion round for every student. The students were divided in groups of 12-15 from each batch and were presented before different panels. The personal interview round started immediately after the group discussion was over and every student was given a chance to attend the individual interview. A separate feedback session was arranged in the evening to share the common feedback with all students.
