Report on the workshop

"Cake making for prospective entrepreneurs"

18th of December, 2016

The cake business in India has witnessed massive growth over the last few years due to the increased demand from consumers, the burgeoning cafe-culture and of course, social media. Home-based baking, in particular, has been taken up by a huge number of women entrepreneurs thanks to these reasons. There are many initiatives which are also being taken by the Government of India, which has further encouraged them to pursue their baking dreams. Not just women, quite a few men are also taking up home baking as a profession.

MACFAST has successfully conducted training programmes on Cake making in this regard. A 2 Day training program on cake making, for prospective entrepreneurs was conducted on 15 and 16th of December, 2016. The coordinator of the program was Mrs. Pinchu Elizabeth Thomas and the main sessions were handled by her. The registration was handed by Mr. Biju Dharmapalan, School of Biosciences. A total of 7 participants attended the training programme.
